

## Enrichment activities

Enrichment sessions are group activities and clubs set up for pupils to mix outside of their own classes to experience, participate and interact with one another. These help develop and reinforce play, social and independence skills through all abilities within school. Each department organises suitable clubs for their age ranges. These occur on Tuesday and Thursday in lesson 5 and on a Friday in lesson 3 and 4. Football club also happens at Enrichment time where pupils learn new skills, play matches and even compete against other special needs schools at a local level.
